

What is a Guided Course?

Mediabistro instructors are active, working professionals at the top of their fields teaching the latest industry trends. Every class includes online interaction, personalized feedback, and a focus on completing professional-quality work.

Guided Courses have a dedicated instructor, giving weekly in-depth feedback to help students further their craft. Students can communicate with the instructor and other students within the classroom forums.

SYSTEM REQUIREMENTS

You will need access to a computer and speakers or headphones to participate.
