## SKIN TRADE

### INTRODUCING MATOUCHE

Touchable sophistication for whatever skin you're into, Matouche is a textural trip around the globe. With finishes that mimic pachydermal, crocodilian and reptilian hides showcased in Deco-inspired colors, Matouche is the perfect touch for modern decor.

## WALK THE PLANK

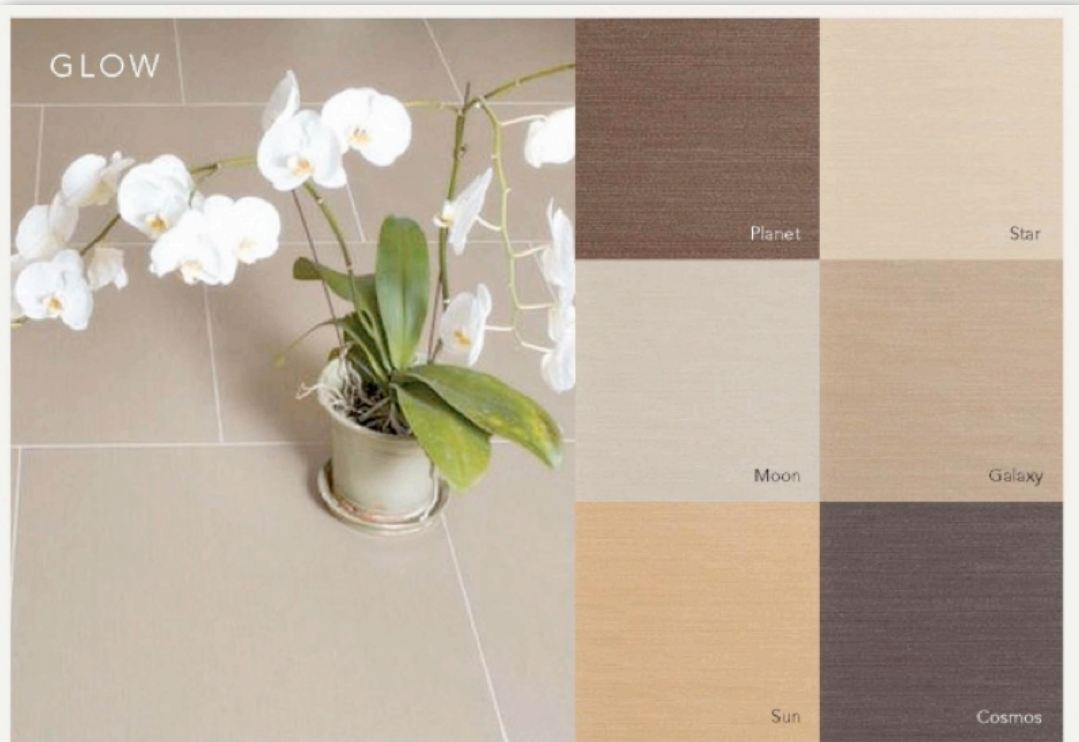

### INTRODUCING VINTAGE WOOD PLANKS

The look of vintage wood interpreted in sturdy porcelain tile planks—this is how to indulge your desire for wood and your need for worry-free surfaces. Lean tiles capture the texture and timeless appeal of weathered, reclaimed wood, yet withstand the challenges of modern lifestyles. Walk these planks without reserve; they will remain timeless beautiful.

### AWAY WE GLOW

The "Glow" of this tile collection isn't about sparkles and shimmers. It's about the almost illuminating effect of a fresh, light color palette and crisp texture and detailing. Reminiscent of the look of natural fibers or gently starched fabric, Glow casts any space in bright, soft-focus perfection. Let your next design project flow with the glow.

# MISSION ACCOMPLISHED

PROJECT:  
**LIME**  
RESTAURANT

## LIME ■ A Restaurant with a Twist

Renowned Nashville restaurateur Chris Hyndman holds the midtown monopoly on hip dining. With ever-popular hot spots Virago and Lay'la in his line-up, Hyndman is masterful at bringing unique flavors not only to a plate but to a place as well. His restaurants are deliciously designed to create atmospheres as tempting as his menus.

When Hyndman embarked on his latest creation, LIME, he consulted with Mission Stone & Tile's Mary Elizabeth Hulsey to ensure the new space would have all the right twists. In turn, Mary Elizabeth specified a tasty array of stone and tile to embody LIME's infusion of Latin and West Coast influences.

The result... LIME's design is a posh palette of textures, colors and shapes. With surfaces as sturdy as they are sexy, LIME tastefully withstands the throngs of beautiful people who pack out the place nightly to lap up the Latin luxury.

LIME—another Mission Accomplished!

## LIBERTY HILL FARM ■ Country Setting, City Living

Liberty Hill Farm is an exclusive pocket of residential paradise, tucked on a tree-framed hill off a shady lane in Brentwood, Tennessee. Though only a short jaunt from the bustle of suburbia, this hidden acreage is as charming and expansive as it was when first settled in 1799. Today, the land is tastefully divided into generous lots featuring grand homes that offer city living and convenience in a pastoral setting.

Builder Rob Tallman and Interior Designer Stephanie Gilboy strove to blend modernity with history in the new construction, and likewise, they restored the existing farmhouse with a gracious update to enhance livability while preserving southern civility.

Mission Stone & Tile's array of authentic, natural products made for ideal accompaniments to the farmhouse and the new houses at Liberty Hill. The installations feature a variety of stone and tile, custom looks befitting homes of grand scale and utmost tranquility.

# SCREEN GEMS™ COLLECTION

## SPARKLING SCENE STEALERS

These glamorous glass mosaics and perfectly proportioned penny rounds are the epitome of class and panache. The collections come in tiny mosaic pieces placed on mesh-backed screens for simple installation—but they never play bit roles. Available in daring, contemporary colors, these charmers have true star quality, lighting up any (room) scene with dazzling design versatility and always enjoying top billing.

## Beveled Arabesque

Ivory

White

### REVEL IN THE BEVEL

Simple ivory or white tiles take a grand turn with raised designs in timeless arabesque formations. The polished styling adds art to architecture and touchable texture to walls; the overall look is distinctively refined and well-defined.
