Introduction to Argentina

Argentina: Rich in History. Diverse in Culture

Argentina is exciting and diverse. While planning your Argentina travel, you may feel the desire to extend your trip an extra week to take in all the country has to offer. Between exploring **Buenos Aires**, tasting wine in **Mendoza**, enjoying the vast beauty of **Patagonia**, skiing near **Bariloche** or marveling at **Iguazú Falls**, you certainly won't run out of things to do during your Argentina vacation.

Bustling Buenos Aires

You could easily spend all of your Argentina travel in **Buenos Aires**. This cosmopolitan city is jumping with excitement and activity all day and night. Take time to explore important cultural sites like **Casa Rosada**, **Teatro Colón**, the **Recoleta Cultural Center** (for concerts and other live performances) or **Cementerio de la Recoleta** to visit the grave of **Eva Peron**. Visit the vast **Palermo** neighborhood and its many districts for trendy shopping and eclectic restaurants. Swing through **La Boca** barrio to see the brightly painted houses in all sorts of pastel colors and hit **San Telmo's Plaza Dorrego** for antique markets and casual tango dancing where anyone can participate.

Get Drunk on the Culture... or Just the Wine

The **Mendoza** wine region has become the world's fifth largest growing region. **Malbec** is the region's most important noble grape and can be found at wineries throughout, but don't discount the sweet yet crisp native **Torrontes** grape. There are more than 650 wineries, so join an organized tour or hire a guide to take you throughout one of the four sprawling wine zones of Mendoza. But Mendoza isn't just about wine. The region is a jumping off point for adventure and eco-travel, especially to **Mount Aconcagua**. There are also a number of large hotels, like the **Park Hyatt Mendoza**, and many intimate boutique hotels and wine lodges throughout the region.

Argentina Travel is for Lovers

Travel to Argentina encompasses a number of romantic interludes. A short flight from Buenos Aires to Mendoza exposes lovers to more than 650 bodegas, or wineries, or where you can luxuriate at a wine spa, like the **Calvas Wine Lodge**. But it's really Argentina's natural resources that really supply the beauty and backdrop for a romantic holiday. The unspoiled terrain of **Patagonia** offers some of the world's most breathtaking escapes, with rugged glacial mountains, icy blue lakes, Andean national parks and coastal wildlife. Check in to one of the Swiss Alps-like lodges of **Bariloche** for kayaking, paragliding, skiing and more. Or fly over and hike around **Iguazú Falls**, arguably one of the most romantic and spectacular sites on Earth.

Get Outside... and Have Fun

Due to Argentina's varied terrain and climates, travel to Argentina allows for varied eco-tourism and outdoor sports activities. Whether you're looking to hike, ski or horseback ride in **Las Pampas**, an Argentina vacation offers it all. Ski junkies who can't get enough should visit between June and September for great runs in **Bariloche's Cerro Catedral** or **Mendoza's Las Lenas** resorts. **Patagonia** offers
