TAN TERRIFIC TIPS FROM BEAUTY PROS

Keep it Real: Go for a glow that complements your natural color, whether fair to medium or medium to tan.

Scrub for Length: For a thorough exfoliation, apply less pressure for a longer period of time.

Go for the Gold:
Nothing shows off a tan better than luxurious gold.

Face It: Keep your tan even from body to face. Look for a glow moisturizer designed for facial skin.

Get Misty: Have a humidifier handy in the summer season to maintain supple skin.

Dust Up: A bit of shimmer dusted on shoulders will spotlight great skin tones.
