

*“Life is what you celebrate. All of it. Even its end.” – Joanne Harris*

It's the little things, the tiny, professional details, and the pretty embellishments that make celebrating life's most important moments memorable. The mission of LiveLoveLife is to create unique, high-quality, custom-designed greeting cards, specialty gifts, gift baskets, and keepsakes; individualized for each and every client.

We create greeting cards, favors, and gifts for a variety of occasions and events, with baby showers and weddings continuing to be client favorites. Our creative and professional greetings, gifts, and décor that are made to order just for you will not only add to your special occasion, but also turn into keepsakes that last a lifetime. A greeting card so appropriate and nice that no one would ever want to throw it away, or wedding favors and decorations that have significant meaning beyond the actual occasion or day; our products become keepsakes that can be shared with future generations!

LiveLoveLife was created in 2009 by designer and founder, AJ, out of inspiration from her late grandmother. While in college, AJ's grandmother constantly provided her with keepsakes, calendars, greeting cards, and placemats that all contained inspirational messages to motivate her. From those gifts, AJ learned how important personalized gifts can be. Whether helping a wedding planner or bride create invitations or favors, or assisting a mom-to-be with her baby shower favors, she always adds a personal touch.

LiveLoveLife is based in Washington, D.C., but ships to clients nationwide. We look forward to making your occasion or event special and memorable!
