

Interiors by Carolyn Hopkins

Your Vision. And More.

The mask you bought in Africa. The picture frame from Paris. Your pottery from Peru.

These are all reflections of you, your life experiences and your personal tastes. No one decorating scheme can define the essence of you and your home.

Interior Designer Carolyn Hopkins, owner of Haute Décor, understands that your style can be as limitless as your passions. From design, space planning, window treatment and furniture selection, and color coordination to complete project management, Carolyn will create an environment that is unique, sophisticated and ever-evolving.

Just like you.
