

# Introducing Foster<sup>®</sup> Line of Defense<sup>™</sup>

## Mold, You're Going Down...

Foster has the best "defensive" solution to tackle the job, whether you're remediating invasive mold or defending against its return.

EPA-Registered

### Our defensive line-up includes:

**Foster 40-80<sup>™</sup>**: kills odor-causing bacteria and inhibits the growth of mold and mildew. Use it to pre-clean contaminated building materials prior to applying a fungicidal protective coating.

**Foster 40-20<sup>™</sup>\***: guards against odor-causing bacteria and mold on the coating's surface and is formulated for long-term fungicidal activity.

**Foster 40-25<sup>™</sup>\***: kills residual mold on pre-cleaned contaminated surfaces and protects the surface of building materials from fungal growth. Formulated for long term fungicidal activity.

**\*LEED Compliant**

To pick the best player for your next project, call a Foster representative at **800.231.9541** or visit us at **www.fosterproducts.com**.
