

[Tommy Gallagher and his Incredible Friends](#)

Kick out the jams with Tommy Gallagher and friends ©

By Connie J. Schlosberg

Tommy Gallagher's Incredible Friends' music kicks off with a punch. Self-described as a "Seasoned, Professional, Fun loving Jamband," Tommy provides an innovative sound to some great favorites. Their rendition of the Allman Brothers jazz-influenced instrumental "In Memory of Elizabeth Reed" is phenomenal. Versions of "Little Wing" and "Cosmic Ray" are remarkable. Their approach is unconstrained, unhindered expression of complete freedom for the music.

Based in Colorado Springs, Colorado, Tommy got together with award winning guitarist/vocalist **Michael Reese**, bassist **Kim Stone**, a five-time Grammy nominee, former Spyra Gyra alumni and current member of the Rippingtons, and drummer **Lenny Campanaro**, the formerly of Badfinger, Iron Butterfly and his own band Private Life in the autumn of 2007. Both individually and collectively these guys rock the house. No need for fancy showmanship – the music speaks for itself. A vision of true musicianship!
