

Customer Copy, Web-Based Reporting

Sample 1

To help you streamline your operational efficiency, NDCHealth now offers Web-Based Reporting. Using this quality service, you, the busy pharmacist, will receive your reports electronically. No more paper files, and your reports will clearly list prescriptions where you can make the most impact – *and* increase your overall reimbursement.

Be proactive, go interactive with Web-Based Reporting!

For more information, please call the NDCHealth Pharmacy Support Center at 800.388.2316.

Sample 2

Be Proactive – Go Interactive With Web-Based Reporting

Now is the time to take advantage of two *free* enhancements from NDCHealth.

Web-based reporting for NDC Pre & Post Editing offers fast and reliable report delivery via the Internet – no more missing reports – and easy report storage capability to your hard drive.

NDCHealth also offers their new PPE – Action View report. This report is available only through web-based reporting. Among many benefits, it identifies prescriptions and recommended actions to realize maximum reimbursement.

To register for web-based reporting and automatically receive the Action View report, please contact the NDCHealth Pharmacy Support Center *today* at 800.388.2316.

Sample 3

You care about your customers and your business. But with your busy and demanding schedule, you do not always have time to focus on each and every claim. To optimize your overall reimbursement, NDCHealth now offers Web-Based Reporting. You will receive your reports electronically – no more paper files – and can immediately focus on priority prescriptions.

Be proactive, go interactive with Web-Based Reporting!
